- Constructed of high molecular weight polyethylene that will not breakdown and deteriorate. The most durable group house available.
- Large entryway, for maximum ventilation.
- Extra hutch height – allow animals to stay in the unit longer.
- Treated lumber base, provides a stable and secure foundation.
- Ridge top ventilation for improved air circulation.

External sizes

Width	273cm
Overall Height	183cm
Length	220cm

Treated Timber Base

Strong, Durable and Easy to Move

High Molecular Weight Polyethylene
Extended Life and Durability

Large Entry Way

Bio-security Constructed of
Microbial-resistant Materials

Calf-Tel is all about investing in the future. Replacement stock is the life blood of your farm. You spend years investing in making your new calves the best they can. Only to have one cold night wipe out all the hard work.

At Stallion we believe in investing in the future too so we looked at the best available in the market. Calf-Tel is made in the United States and is made for keeping calves clean, warm and dry. For over 25 Years Calf-Tel have been producing the best and most cost effective housing systems money can buy. Don't take a gamble this year, invest in your calves and invest in Calf-Tel by Stallion Plastics.

10 Year Limited Warranty

ORDER NOW ON - 0508 688 688

CALF-TEL MINI

**NEW
FOR 2010!!!**

- Extremely durable and lightweight – the longest lasting hutch on the market.
- Decreased labour and healthier calves – easy to move and clean.
- Extra hutch length provides protection in cold and damp conditions.
- Maximum UV protection available.
- Designed to allow each calf to seek its ideal microenvironment – from a sunny spot in the pen or entryway to a protected spot in the far back of the hutch.
- Can also be used for Goats, Large Dogs, Pigs etc.

External sizes

Width	122cm
Overall Height	133cm
Length	220cm

CALF-TEL PEN SYSTEM

- Adjustable door and bucket height
- Easy to set up, configure, expand and sanitize
- Lightweight and simple to move
- System can interlock back-to-back and side-to-side
- Superior ventilation – standard adjustable rear venting
- Exterior feeding – easy access to feed and water
- Rugged, easy to use hardware – solid steel L-rods

I-MILK FLO-TEK

Looking for a portable milking machine or just want to milk the house cow...this is for you!!

The units have a number of uses from milking a cow when she cannot get to the shed, to milking goats or cows on the farm. Great for calf feeding time!!

The Flo Tec I-milker is perfect for small herds where you are trying to improve milk quality. The milk is sealed from the teat to the bucket so less chance of contamination from outside sources.

Easy to use and move around these portable units are made to last with No Oil Vacuum pumps and easy to clean parts. As with all milking plant these machines must be cleaned with the correct milking machine detergents after each use.

**NEW
FOR 2010!!!**

I-MILK MOBILE MILKER

Carbon Vane Vacuum Pump - No Oil

200L/min Vacuum Pump

2x2 Pulsator - Smoother Milking

280ml Hi-Flow Claw

Goat Model Available

I-MILK MOBILE MILKER DUO

Carbon Vane Vacuum Pump - No Oil

200L/min Vacuum Pump

2x2 Pulsators - Smoother Milking

280ml Hi-Flow Claw

Goat Model Available

The Flo-tek i-milk mobile milker is perfect for small herds of cows or goats, where you are trying to improve milk quality. The milk is sealed from the teat to the bucket, so there is less chance of contamination from outside sources, reducing bacteria levels in your milk.

ORDER NOW ON - 0508 688 688

The most **natural** feeding teat on the market

Calves LOVE PEACH TEATS

- New Zealand's number one selling teat
- Soft, flexible rubber
- Closely resembles a cow's teat
- Easily removed
- Leak-resistant

There is a milk opening on each side of the nipple, situated so that the crown of the nipple remains intact and ensures that the teat is leak-resistant.

The valve never closes in its relaxed state so it cannot be blocked. It is designed to function like a real cow's teat, moving all the time while the calf is sucking.

Available with a screw-on thread, making changing and installing as simple as a couple of twists.

The teat action ensures efficient, even feeding – calves do not stress or fidget. Health problems, such as scours or pneumonia, are reduced.

Peach Teats can even be milked on a milking machine...

proving that it totally simulates the cow's teat!

You would think that
the teat was alive!

FAX AWAY FOR YOUR NEW STALLION FEEDER

We will deliver to your farm free of charge,
unpack and show you how to use it.

PLUS, for any reason you are not happy we will
give you a 10 day exchange for any other
